Mohamed Ayman Rashad

Full-Stack Developer

mohamedaymanhashis13@gmail.com • +201030781453 • Kafr El-Sheikh, Egypt

LinkedIn • GitHub • Portfolio

Objective

Passionate Full-Stack Developer and Computer Science student with hands-on experience in React, Next.js, Node.js, and Express.js. Skilled in building scalable web applications and RESTful APIs, with a strong interest in backend architecture, secure systems, and clean, maintainable code.

Education

Bachelor of Science in Computer Science at Kafrelsheikh University, Kafr El-Sheikh, Egypt **September 2024 - Present**

Pursuing a Bachelor's degree in Computer Science at the Faculty of Computers and Information, Kafrelsheikh University, with a focus on software development, web technologies, and database systems.

Skills

Frontend Development: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Redux Toolkit

Backend Development: Node.js, Express.js, RESTful APIs

Databases & ORM: PostgreSQL, MongoDB, Prisma ORM, Mongoose

Tools & Integrations: Git, GitHub, Postman, Stripe, Cloudinary

Personal Projects

Booking Platform | Full-Stack Web Application • Frontend Repository • Backend Repository • Live Demo

Developed a full-stack accommodation booking platform inspired by Booking.com, featuring property management, booking and reservation workflows, and role-based access for users, hosts, and administrators. Implemented JWT authentication, Google OAuth, RESTful APIs, Stripe payment integration, property reviews, and saved properties. Integrated Cloudinary for image uploads and used MongoDB for data storage.

Craveo | Full-Stack Food Ordering Platform • Frontend Repository • Backend Repository • Live Demo

Developed a full-stack food ordering platform with dedicated workflows for customers, administrators, and delivery personnel. Implemented secure authentication, role-based authorization, product customization, shopping cart management, order tracking, and online payments using Stripe Checkout and webhooks. Built RESTful APIs with Node.js and Express.js, using PostgreSQL, Prisma ORM, Cloudinary, and Zod for database management and image uploads
